"Before registering a motor vehicle, the Registering Officer shall be satisfied that:—

(1) the motor vehicle, if it exceeds in weight twelve tons, is capable of being so worked that it may travel either forwards or backwards;

(2) (a) the motor vehicle is equipped with two entirely independent and efficient braking systems or with one efficient braking system having two independent means of operation, in such cases as designed, constructed and maintained that the failure of any single portion of any braking system shall not, even under the most adverse conditions, prevent the brakes on two wheels or in the case of a motor vehicle having less than four wheels on one wheel, from operating effectively, so as to cause it to halt such wheels, thus resulting or to have the same effect as stopping the motor vehicle as if such wheels were so held;

Provided that, in the case of a single braking system, the two means of operation shall not be deemed to be otherwise than independent solely by reason of the fact that they are actuated either directly or indirectly with the same cross shaft;

(3) in the case of a motor vehicle having more than two wheels and equipped with two independent braking systems each such system is so designed, constructed and maintained that if it acts (either directly or indirectly) on two wheels only, it shall act on two wheels on the same axle;

(4) where the means of operation are actuated either directly or indirectly with the same cross shaft, the brakes applied by one of such means shall act on all the wheels of the motor vehicle directly and not through the transmission gear;

(5) in all cases the brakes operated by one of the means of operation shall be applied by direct mechanical means without the intervention of any hydraulic, electric or pneumatic device;

(6) in all cases the brakes operated by one of the means of operation shall act directly upon the wheels and not through the transmission gear;

(7) except in the case of a motor bicycle with or without a self-start, the braking system, or one of the braking systems, is so designed, constructed and maintained that it can be so actuated as to prevent two at least, or in the case of a motor vehicle having only three wheels, one at least of the wheels from revolving when the vehicle is left unattended;

(8) the motor vehicle and all its fittings are in such a condition as not to cause, or likely to cause danger to any person;

(9) the motor vehicle is so constructed and used that no smoke, visible vapour or incandescent material shall be emitted therefrom, except from some temporary or accidental cause, or such quantity as to cause annoyance or danger to the public;

(10) the motor vehicle is fitted with a siren, alarm, signal or other contrivance, suitable

and efficient for reducing as far as may reasonably be practicable, the noise caused by the escape of the exhaust gases from the engine; and

(11) if the motor vehicle is propelled by steam:

(a) it is so designed, constructed and maintained that it shall contain no gun barrel; and

(b) it is fitted with an efficient "spark arrester".

## NOTIFICATION.

AMENDMENTS AND ADDITIONS TO AND ALTERATIONS IN THE REGULATIONS ADOPTED BY THE ACADEMIC COUNCIL AT ITS MEETING HELD ON 12th and 14th FEBRUARY 1931.

I. In Chapter XXXIX of the University Code 1930–31, section 1, insert the full stop at the end of first paragraph of sub-section (a) into a comma and add "and a certificate of medical inspection, if any, from the college in which he last studied."

(To come into force as from the academic year 1931–32.)

### Objects and Reasons.

The Syndicate is proposing to the Senate draft amendments to statutes relating to the appointment of a Medical Officer to the University and medical inspection of students in redress. The above amendments to Regulations are consequential upon the proposed statutes.

II. In Chapter XXX (Matriculation Examination), substitute the syllabus in Geography as given in the revised S.E.C. syllabus for the existing one under "A. Geography" on page 211 of the Code for 1930–31.

(To come into force as from the Matriculation Examination of 1932.)

#### Objects and Reasons.

The syllabus is that current for the S.E.C. examination under the revised scheme. The Board of Studies in History is of the opinion that this syllabus is more scientific and up to date than the one deleted.

III. In Chapter XXXVI (O.T. Examinations) add the following at the end of Section 5-A, Special. (ii). Uthayabhasha Praveena, on page 480 of the Code for 1930-31.—

"A candidate who has qualified for the title of Uthayabhasha Praveena Part A examination under Regulation 5-A of the scheme, may, in accordance with the regulations, further qualify himself for the same title in Part B after the expiry of one year by passing the examination in accordance with Regulation 5-B of the scheme subject to the following conditions:—

(i) that he shall not be required to pass the Entrance test prescribed for the Uthayabhasha Praveena Part B of the course;

(ii) that he shall take the vernacular which he has taken under Part A for the Part B examination also; and

(3) that he shall take the whole examination (both Preliminary and Final) in one and the same examination."

(To come into force as from the O.T. Examinations of 1932.)

#### Objects and Reasons.

Under Regulation 5-A, Special (i), Vidya Praveena of Chapter XXXVI of the Code, a candidate who has qualified for the title of Vidya Praveena in any one of the special branches of study may further qualify in any other branch by passing the same after one year under certain conditions; but in such opportunity is given to Uthayabhasha Praveena candidates who, having passed one part, are desirous of taking the other parts similarly. The present amendment remedies the defect.

IV. In Chapter XXXVI (O.T. Examinations), add the following after Section 5-A, Special (ii), on page 480 of the Code for 1930-31:—

"or, Uthayabhasha Praveena and Vidya Praveena.—

A candidate who has qualified for the title of Uthayabhasha Praveena under Regulation 5-A, i.e., Part A, may further qualify himself for the title of Vidya Praveena Ekshya, Research after the expiry of one year by passing the examination for that title in accordance with the regulations, subject to the following conditions:—

(i) that he shall not be required to pass the Entrance test prescribed for the Vidya Praveena Ekshya Research; and

(ii) that he shall cover all the papers of both the Preliminary and Final examinations in the same year, provided that a candidate who secured a fourth at the Uthayabhasha Praveena examination, Part A, 50 per cent of the total marks passed thereon, shall be exempt from answering the corresponding papers when he appears for Vidya Praveena examination."

(To come into force as from the O.T. Examinations of 1931.)

#### Objects and Reasons.

Under the regulations, candidates who have taken a fourth Vidya Praveena course may appear for the Uthayabhasha Praveena examination

without passing any Entrance test but not vice versa. The regulation is intended to remedy the defect. The conditions are the same in both the cases.

V. In Chapter XXII, section 8, lines 2 and 3, delete the words "resident for the time being in the University area."

In the same section, in line 3 on page 135, after the words "Residential Council" add the following:— and situated within the area of affiliation of the University."

Insert the following between the subsection 8 (i) and the last paragraph of the section:—

"A candidate shall not be considered eligible for exemption unless he or she has resided continuously within the area of affiliation of the University for a period of not less than two years immediately preceding the date of application for exemption."

(To come into force immediately.)

#### Objects and Reasons.

Under the present Regulations any bona fide teacher in a institution recognised by the Director of Public Instruction or by a District Educational Council is eligible for exemption provided he satisfies other conditions, and it is desirable that this exemption should be allowed only in the case of those engaged in teaching in the University area of affiliation.

The present working of the regulation relating to residential qualification is very lax and leads to a very loose interpretation of the rule as such so a person who resides within the University area even for a short period as one week has to be considered eligible for grant of exemption. The amendment provides for a definite period of residence before an applicant for exemption is entertained.

VI. In Chapter XXXIII-A of the University Code (1930-31), Section 5.—

(i) for lines 12 and 13 on page 309 substitute the following:—

"There shall be four papers in English, three of three hours' duration and the fourth of two and a half hours' duration."

(2) in lines 22 and 23 for the words "two hours' duration" substitute the words "three hours' duration."

(3) in the last line on the same page for the word "two" substitute the words "two and a half."

(To come into force as from the examinations of 1932.)

#### Objects and Reasons.

The text-books prescribed for condensed study in English for the B.A. and B.Sc. Degree Examinations are the same and a reduction paper is set for these two examinations. According to the existing regulation, the paper for B.A. under Old Regulations and B.Sc. is of three hours' duration, whereas for B.A. under the New Regulations, which came into force as from 1925, the duration of the paper is only two hours. With a view to obviate the difficulty of setting separate papers or giving a choice of questions, it is desirable that the B.A. paper also should be of three hours' duration.

The Board of Studies in English also recommended that the duration of the Modern Poetry paper should be one of two hours and a half.

VII. That in Chapter XXXIII of the Code (1930-31), the following shall be inserted between the fourth and fifth lines on page 231:—

"(a) *Classical—Sanskrit, Pali, Arabic and Persian.*

The course shall comprise (a) a detailed study of prescribed text-books on prose, poetry and drama and applied grammar and poetics; and (b) translation of verse and prose passages from and into English.

The first paper shall be open (a) and the second (b).

(b) *Modern Indian—Telugu, Kannada, Hindi, Oriya, Marathi, and Urdu.*

The main object of the course shall be the training of the student to employ the language as a vehicle of expression of modern thought.

The course shall comprise (a) a detailed study of prescribed text-books on prose, poetry and drama and applied grammar and poetics; and (b) original composition, composition on text-books as given set for non-detailed study and translation from English into Urdu.

The first paper shall be open (a) and the second open (b)."

(To come into force as from the B.A. Degree Examination of 1932 under the New Regulations.)

VIII. To be interpolated in Chapter XXXII-a of the Code, at the end:—

#### THIRTIETH REGULATIONS

I. For the benefit of candidates who have failed in the B.A. Degree Examination of 1931 or earlier, the B.A. Degree Examination under the Old Regulations (i.e., in force up to and inclusive of the examination of 1931) will be held in the months of April and September 1932 under the old regulations. Candidates for the B.A. Degree Examination who complete their course of study and secure the prescribed certificates of attendance and progress for two years under the Old Regulations shall be permitted to appear for the B.A. Degree Examination of 1932 under the same regulations. Candidates who have been exempted from the production of attendance certificates may, at their option, appear for the examination of 1932 under the Old Regulations. The text-books and syllabus will be the same as those prescribed for the examinations of 1931.

II. No examination for the B.A. Degree under the Old Regulations, i.e., in force up to and inclusive of the B.A. Degree Examination of 1931 shall be held as from the B.A. Degree Examination of 1932.

Candidates for the B.A. Degree Examination who completed their course of study for that examination under the Old Regulations shall be permitted to complete the B.A. Degree Examination under the New Regulations subject to the following conditions:—

(1) A candidate who has passed Part I of the examination under the Old Regulations shall be deemed to have passed in Parts I and II under the New Regulations.

(2) A candidate who has passed Part II under the Old Regulations shall be deemed to have passed in Part III of the examination under the New Regulations.

(3) A candidate who has failed to pass in Part I of the examination under the Old Regulations shall be exempted from the examination in a language under Part II of the examination under the New Regulations, but shall be required to

take five papers in English, comprising the four papers under the New Regulations and one additional paper in the 17th and 18th Century French to be set as the text-book prescribed for the examination of 1931. This regulation shall be in force till the September examination of 1933. Thereafter candidates will have to appear for the examination under the regulations then in force.

(4) A candidate who fails to pass in Part II of the examination under the Old Regulations in a group other than Group (b)—Physical Science or group (a)—Natural Science, shall be required to take the papers set for the corresponding group under the New Regulations.

(The provisions in the papers to be set for Groups (a) and (b) candidates, either separately or in common with corresponding subjects under B.Sc., as still under correspondence with the Board of Studies concerned.)

On or after 1st June 1931, candidates for the B.A. Degree examination, who had completed the first year's course of study in a non-science or Mathematics group prescribed for the examination under the regulations in force prior to the calendar year 1930-31 and had earned the certificate of attendance and progress prescribed for that year but are unable to complete the course under these regulations, will be permitted to complete the second year course of study by attending classes under the New Regulations and to appear for the examination under the New Regulations. They shall be exempted from the production of the attendance certificates required for the first year of the course.

(To come into force as from the year 1931.)

IX. In Chapter XXXVIII of the Code (1930-31, page 538.—*Yenote-tables for the Intermediate Examination.*—under "Part II—A second language", as the last column, addenda, under marks, "100" for "50" against each paper.

(To come into force as from the Intermediate Examination of 1932.)

#### Objects and Reasons.

The fixing of the marks would serve as an incentive to students to pay greater attention to Part II, by making it possible for them to get a first class by means of proficiency in Part II. It stands as much to reason that a student should get a first class through proficiency in Part II with the 200 marks as that he should get the same through proficiency in Part I English with the 200 marks.

X. *Amendments to Yenote-tables for B.Sc. Degree Examination in Chapter XXXVIII of the Code:—*

(a) Substitute "250" for "200" occurring in the marks column for First and Second Papers under *Physics (Hindi).*

(b) Substitute "40" for "30" occurring in the marks column for each of the first two written papers under *Biology, Zoology and Geology (all subsidiary).*

(c) Substitute "80" for "50" occurring in the marks column for each of the two practical examinations under *Physics (subsidiary).*

(To come into force as from the B.Sc. Degree Examination of 1933.)

#### Objects and Reasons.

With a view to secure uniformity in the science subjects for the B.Sc. Degree examination, the Chairman of the Board of Studies in Natural Science recommends the above alterations.

XI In Chapter XXXII of the Code, Section 5, under "(a) History and Economics (History First)"—page 295—at the end add "provided that for the examinations of 1931, a candidate may, at his discretion, bring in a language in his list of Excluded Subjects."

(The minimum is for the B.A. Degree Examinations of 1931 only.)

#### *Objects and Scheme.*

Under the existing regulations there is no provision for holding an examination in foreign as an alternative to Political Science for candidates of Group (b)—History and Economics of the B.A. Degree Examination. Such a provision existed to exist from the examinations of 1931.

A student has by arrangement been admitted into a college with a language as an alternative to Political Science in July 1929, and this student presents himself in place of Political Science for the coming B.A. Degree Examination.

XII. Incorporated in the Code as a New Chapter 1931-32.

#### CHAPTER XXXII-B.

And whereas the said company has not shown such cause within the time allowed which expired on the 1st March 1931;
